

**Date: 03 May 2022**

**Dear Aayush Shah**

**Subject: Internship training for Software developer**

Welcome to Barodaweb...

We hereby offer you internship for the post of Jr. Software Developer. During your internship period you are supposed to work on Computer Vision application development. Apart from your regular job description, you have to get involved in work areas like designing & graphics and other work areas in Barodaweb works.

Your internship duration will be based on your project completion. You need to upgrade yourself in Machine Learning , Deep Learning, Artificial Intelligence and Computer Vision during your internship programme.

Expecting Creative mindset in upcoming days, Wishing you good luck for future endeavours!!

Yours Faithfully,  
For Barodaweb
